

CHELSEA NOTES

A clean sweep has been made at Chelsea, New officers, new players and new colors.

Chelsea's new colors, brown and gold, looked very neat at Cheltenham on Saturday.

McDonald, the coach, was elected captain with Crosbie as vice.

Seeing this was the first time the team had been together they put up a good game. The scores do not indicate the play.

Several more new men are to come into the team yet and each one worth his place.

Providing they get cleared there will be two stars in for Saturday.

It is rumored that within the next week or two, two prominent ruck men from town (both over six feet) will be seen in the colors.

We expect to beat more than beat us this year.
